### **Overview**

Participants in this workshop will receive a practical study in the history of and the ritual in how to divine with the YiJing (I Ching), Book of Changes. We will specifically concentrate on the wisdom that Confucius contributed to this ancient book. We will learn the energy of the individual 8 trigrams and how they combine to create the 64 hexagrams using the ancient method of consulting with traditional yarrow sticks (sticks will be provided). At the end of the workshop, as a group, we will seek the YiJing wisdom by participating in a ritualistic consultation to a question we corporately discern. The I Ching, Book of Changes uses a type of divination called cleromancy and is one of the most ancient of all divination practices designed to assist the individual in making choices or providing great wisdom to their questions.
